

## 1U 2.5" SAS/SATA Drive JBOD Enclosure

### General Description:

This 1U RSI-SAS1U-4X SAS/SATA JBOD enclosure is an extremely cost effective and highly scalable storage system for up to eight 2.5" SAS/SATA drives technology.

### Features:

- Supports SAS narrow and wide port configuration for optimum bandwidth
- High performance internal cooling fan for greater reliability
- Total Redundancy using Mini SAS connectors
- Status LED indicators

### Specifications:

- Unit Weight: 15 lbs
- Unit Weight with drives: 18 lbs
- Low noise
- Three cooling fans
- Size: Fits 1U 19" rack. 19" x 18.75" x 1.75"
- Eight 2x SAS Connectors
- Optional two SFF-8088 Mini SAS Connectors RSI-SAS1U-2M

**RSI-SAS1U-4X**

**With two 4x (Infiniband) SAS Connectors**

### Applications:

1U JBOD supports small form factor high capacity 2.5" SAS and SATA disk drives thus multiplying the number of spindles typically used in the space by a factor of eight.

1U JBOD is the smallest available storage system which provides affordable, scalable storage solutions in the smallest form factor ever available.
