Dual 2.5 Inch Drive Trayless Enclosure

General Description

The SATA2221B, enterprise storage solution with trayless hot-swap capability, is designed to house two 2.5" hard drives and is to be mounted in a single 3.5" tray-less designed drive bay which typically is what's left within a PC, Server, or Rack Mount for device expansion.

Features

- Interface: SATA x 2
- Tray-less design
- LED indication for HDD and Accessing
- Dimension matches exactly as a standard 3.5" Bay
- Energy saving on using 2.5" HDD or SSD
- Complies with SATA-I, SATA-II interface and maximum transfer rate up to 1.5Gbps for SATA-I & 3.0Gbps for SATA-II
- HDD Auto eject when you open the cover
- Aluminum material, best heat sink
- No driver required
- Dimension: 101.70 x 25.80 x 146mm
- Weight without drives: 0.5LBs/per unit
- ROHS
- Color: Black
